

## **MENTOR Vermont's Fall 2021 COVID-19 Programming Recommendations**

*Programs should make their own decisions and should feel free to be more cautious with restrictions they wish to implement for their program. The focus should be on transparent communication with mentors, mentees, and families and ensuring participants feel comfortable and stay safe.*

### **When both mentee and mentor are vaccinated:**

- **Outside:** Masks encouraged (especially when other people are in close proximity)
- **Inside:** Masks recommended and avoid crowded spaces and places where masks are not being worn by others
- **Transportation:** Mentee seated in back passenger seat (ideally), masks worn, and windows open

### **When one person in the match isn't vaccinated (either mentor or mentee):**

- **Outside:** Recommended as primary activity location, masks encouraged (especially when other people are in close proximity)
- **Inside:** Masks worn and avoid crowded spaces and places where masks are not being worn by others
- **Transportation:** Mentee seated in back passenger seat (ideally), masks worn, and windows open

### **When both mentor and mentee are not vaccinated:**

- **Outside:** Recommended as primary activity location, masks recommended
- **Inside:** Not recommended as activity location, but if doing so, masks worn and avoid crowded spaces and places where masks are not being worn by others
- **Transportation:** Mentee seated in back passenger seat (ideally), masks worn, and windows open
